

# Why a half mask from Sundström, and not a disposable mask?

- 1 Because a Sundström mask offers a tighter seal and minimises leakage between mask and face.
- 2 A more efficient particle filter, SR 510 P3 R, captures all particles such as dust, smoke and aerosols, with a maximum leakage of 0.003%. The FFP1, FFP2 and FFP3 disposable masks have a leakage of 20 to 1%, depending on classification.
- 3 SR 510 P3 R: 'R' stands for 'reusable'. Replace when breathing resistance gets uncomfortable. The SR 221 pre-filter extends the service life of the filter. Economical and environment-friendly.  
Disposable masks are exactly that - to be used once and then discarded. The marking 'NR' means 'Not reusable'. Expensive and not environment-friendly.
- 4 A half mask from Sundström has one of the world's lowest breathing resistances, making it very comfortable.
- 5 Simple to clean and few spare parts, so the mask can be used for many years.
- 6 Can be used with particle filter only for dusty work, or with gas filter only for exposure to gases and vapours. If both particles and gas are present, the filters can be combined.

## BASIC PACK

### CONTENTS

- 1 SR 900 half mask in TPE
- 1 510 P3 R particle filter
- 5 pre-filters
- 1 pre-filter holder
- 1 cleaning wipe
- 1 set of instructions with maintenance information

**All packed in a practical storage box.**

*Covers at least one month's filter use, and you make great savings compared with disposable labelled FFP3 NR.*

**Suitable for use in dusty environments, for example with:**

- Hay, straw and grain
- Cement and stone dust
- Clearance of water damage, risk of mould
- Dusty cleaning work
- Handling fuel chips
- Wood working
- Chimney-sweeping and cleaning of ventilation installations

## PREMIUM PACK

### CONTENTS

- 1 SR 100 half mask in silicone
- 1 SR 510 P3 R particle filter
- 1 SR 217 A1 gas filter, protects against most solvents
- 5 pre-filters
- 1 pre-filter holder
- 1 cleaning wipe
- 1 set of instructions with maintenance information

**All packed in a practical storage box.**

*You get a mask which will last for several years, and a reusable particle filter. You just need to replace the gas filter when it is worn out.*

**Suitable for use in dusty environments, for example with:**

- Brush painting, gas filter only
- Spray painting, combined gas and particle filters
- High-pressure washing with degreasing, combined gas and particle filters
- Pesticides and spraying, combined gas and particle filters
- Adhesives and lacquer with brush, gas filter only

## PREMIUM PLUS PACK

### CONTENTS

- 1 SR 100 half mask in silicon
- 1 SR 510 P3 R particle filter
- 1 SR 297 ABEK1 gas filter, protects against a wide range of gases
- 5 pre-filters
- 1 pre-filter holder
- 1 cleaning wipe
- 1 set of instructions with maintenance information

**All packed in a practical storage box.**

*You get a mask which will last for several years, and a reusable particle filter. You just need to replace the gas filter when it is worn out.*

**Suitable for use in dusty environments, for example with:**

- Agriculture
- Municipal sewage and treatment plants
- Waste and refuse plants
- Operations with many different contaminants, where you want to be sure not to choose the wrong filter
